# LINK TO PERFECTION

## Why KMC?

### Compatibility

KMC's derailleur chains are compatible with any system, besides that KMC does not distinguish between MTB and Road chains. Product designations clearly indicate their usage. E.g. X11-series fit any 11-speed system.

### Easy assembly

Nearly every KMC chain comes with a connecting link. Assembling the chain is quite easy and safety is enhanced. To shorten the chain to its proper length a regular chain tool can be used. For assembly and disassembly of our MissingLink, we recommend our connecting and removing tools.

### Durability

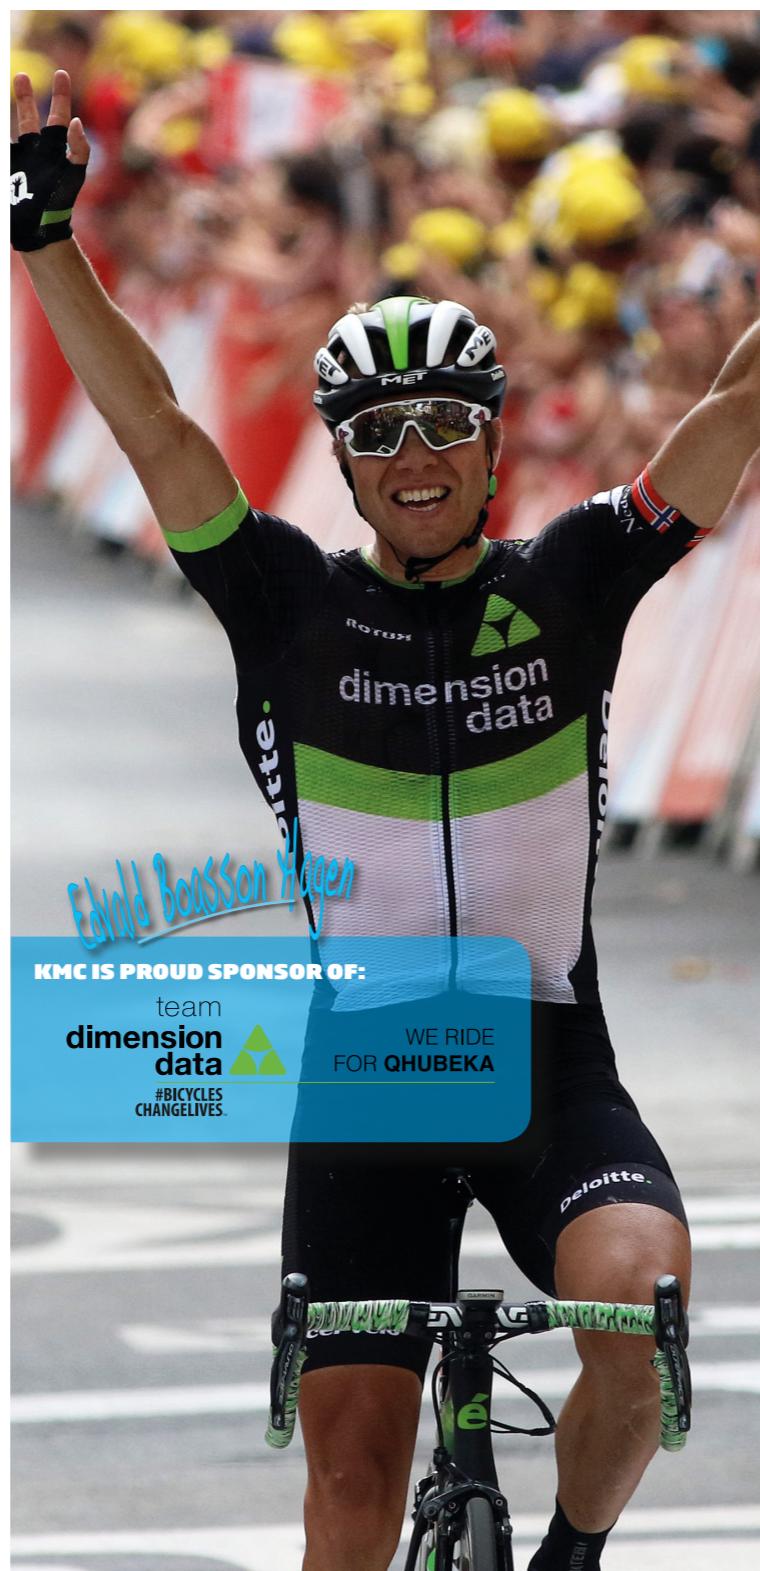

Compared to other renowned chain brands, KMC X-series chains last longer, as proven in many field tests. To back up this claim KMC is the only chain maker offering a unique satisfaction warranty.

### Responsibility

Besides focusing our efforts on making the best possible products, we at KMC also assume full responsibility for the environment. KMC products do not only meet EU's strict ECO regulations (KMC is the world's first chain manufacturer with such a certification), we also go the extra mile in devoting ourselves to projects like measuring the carbon footprint of our products. We are proud to say we are continuously implementing projects to use alternative ways to conserve and produce energy.

We support Oxfam Novib in enabling microfinance

## X-Chain features

### DLC

The main characteristic of the Diamond Like Coating is reduction of abrasive wear. Besides this, its surface hardness is higher than most coatings, this ensures a long-term function, optical stability and higher durability. Diamond durability guarantees unsurpassed durability for all DLC11 and DLC10 chains.

### 3XSP

Triple-X durability guarantees unsurpassed durability for all X11e, X10e, X9e, X1 and X101 chains. If you are not satisfied with the durability of your chain you can contact us. In any case of a valid claim we will replace the chain.

### 2XSP

Double-X durability guarantees unsurpassed durability for all our XL, XEL and XSL chains. If you are not satisfied with the durability of your chain you can contact us. In any case of a valid claim we will replace the chain.

### EPT

KMC's latest breakthrough in rust protection. EcoProTeQ treatment doubles the rust resistance compared to the RB treatment. Benefits of the smoother coating are less noise, optimum performance, maximum rust resistance and great look.

### Ti-N

KMC's special Titanium Nitride coating not only looks fantastic, it has an ultra-smooth surface and is extremely hard.

### Non Directional

Our chains are compatible with all major shifting systems, there is no given direction.

### Super Light

KMC's X11SL weighs 237 grams/114 Links, being the very lightest of all 11-speed chains.

### X-Bridge

Specially designed outer plate to enable fast, smooth and precise shifts.

### e-Bike

Our e-Bike chains are specially designed for use in combination with strong mid motors. Optimized pinpower and unsurpassed durability are the key features of our e-Bike chains.

### Unique Guarantee

The life of a new KMC chain with this quality warranty is guaranteed to last longer than other brands. This Durability treatment includes all DLC, XSL, XEL, EL, X e-Bike chains, X1 and X101 chains.

If you are not satisfied with the durability of your chain, fill out the form on [www.kmcchain.eu/warranty-claim](http://www.kmcchain.eu/warranty-claim).

## DLC11 SERIES

- Compatible with all 11-speed Road and MTB drive train systems
- NON-directional design
- Size: 1/2" x 11/128"
- Pin length: 5,65 mm
- Including MissingLink 11 (CL555)

## 11-SPEED DLC SERIES

FOR ROAD, MTB  
& CYCLO CROSS

### DLC11

- Top-Performance
- Diamond Durability
- Diamond Like Coating
- DLC Black/Red, -/Blue, -/Green, -/Black, -/Orange, -/Pink, -/Yellow and -/Celeste
- Hollow pin, open inner and outer plate design
- Super Light, 243 grams only!
- 116 Links

**Black/Red** Packing Unit: 1 / 20 box  
Product nr.: BXSL11BR

**Black/Blue** Packing Unit: 1 / 20 box  
Product nr.: BXSL11BB

**Black/Green** Packing Unit: 1 / 20 box  
Product nr.: BXSL11GG

**Black** Packing Unit: 1 / 20 box  
Product nr.: BXSL11BC

**Black/Orange** Packing Unit: 1 / 20 box  
Product nr.: BXSL11BO

# KMC e-Bike SOLUTIONS

DRIVE TRAIN BUNDLES FOR e-BIKE

Compatible with

KMC  
e-BIKE  
SOLUTIONS

Mid engine e-bikes pose a real challenge for the drive train, huge torque and shifting under load. This is the reason why we not only decided to make special e-bike chains, but also heavy duty engine drive sprockets and sprockets for internal gear hubs. Narrow tolerance, top end material and sufficient corrosion resistance enable a perfect interaction with our chains.

It has been proven that the combination of X1 and KMC original sprockets significantly increases drive train durability.

However, also on e-Bikes with derailleur the engine drive sprocket quality plays an important role. In fact all drive train parts interact and influence the individual wear of its parts, therefore it is paramount that quality of drive train parts are matching.

KMC X11e, X10e and X9e are reinforced chains, specially made for bikes equipped with strong mid-engines in combination with 11-, 10- or 9-speed derailleur shifting systems. Taking the more frequent shifting movements under load into consideration, the reinforced e-chain allows enhanced safety reserve, besides that, the built-in 3X Durability guarantees unsurpassed chain durability. Matching to our e-bike chain quality we now offer a heavy duty engine drive sprocket for Bosch engines and ensure the highest possible drive train durability.

From Y2017 KMC will introduce a completely modified e-Bike solution, which is expected to nearly double the drive train's life. It's concept is relatively plain; We combine KMC X101 with wide (1/2" x 1/8") sprockets. Both chain and sprocket are being produced with highest precision, while the wider surface contact area adds another building block to further maximizing the drive train's durability.

## Drive train durability on e-Bikes with mid engine

X101 / KMC sprocket wide	10.000+
X1 / KMC sprocket small	3.500+
Standard

KMC  
e-BIKE  
SOLUTIONS

# Anti-Rust Series

- For 11-, 10-, 9- and 8-speed derailleuer systems
- Environmentally friendly EcoProTeQ Anti-Rust coating
- Complying with European standard RoHS
- Including MissingLink

## X11e EcoProTeQ

- Hi-Performance
- Special design for mid-motor e-Bikes
- Triple X-Durability
- Increased Pin-Power
- Hi-Torsion Resistance
- Extra long: 118 Links
- Nickel plated or EcoProTeQ Anti-Rust technology
- MissingLink CL555 non-reusable

50m Roll

## ANTI-RUST SERIES FOR ROAD, MTB, CITY & TREKKING BIKES

Packing Unit: 1 / 5 / 30 box  
Product nr.: BXEP11E8

Packing Unit: 50m roll  
Product nr.: WRX11EEP

## X11 EcoProTeQ

- Hi-Performance
- EcoProTeQ Anti-Rust technology
- Extremely durable

Packing Unit: 1 / 5 / 30 box  
Product nr.: BXX11EP8

## X10e EcoProTeQ

- Hi-Performance
- Special design for mid-motor e-Bikes
- Triple X-Durability
- Increased Pin-Power
- NON-directional design
- Hi-Torsion Resistance
- Extra long: 136 Links
- EcoProTeQ Anti-Rust technology

50m Roll

Packing Unit: 1 / 30 box  
Product nr.: BXE10EP6

Packing Unit: 50m roll  
Product nr.: WRX10EEP

## X10 EcoProTeQ

- Hi-Performance
- Extremely durable
- NON-directional design
- EcoProTeQ Anti-Rust technology
- 114 Links

Packing Unit: 1 / 30 box  
Product nr.: BXE10EP4

## X9e EcoProTeQ

- Compatible with any 9-speed derailleuer system
- Extra long: 136 Links
- Special design for mid-motore-Bikes
- Triple X-Durability
- EcoProTeQ Anti-Rust technology
- Increased Pin-Power
- Hi-Torsion resistance

50m Roll

Packing Unit: 1 / 30 box  
Product nr.: BXE09EP6

Packing Unit: 50m roll  
Product nr.: WRX09EEP

Link To Perfection

## X9 EcoProTeQ

- Hi-Performance
- Extremely durable
- EcoProTeQ Anti-Rust technology
- 116 Links

## X8 EcoProTeQ

- Hi-Performance
- Extremely durable
- EcoProTeQ Anti-Rust technology
- 116 Links

## Z8 RB

- RB Anti-Rust Coating
- 116 Links

Packing Unit: 1 / 5 / 30 box  
Product nr.: BXX9EP16

Packing Unit: 1 / 10 / 60 box  
Product nr.: BX8EP16

Packing Unit: 1 / 10 / 60 box  
Product nr.: BXZ8RB16

## Anti-Rust Series

### FOR CITY & TREKKING BIKES

## Anti-Rust Series

- For single-speed 1/2" x 3/32" Narrow
- Environmentally friendly EcoProTeQ Anti-Rust coating
- Complying with European standard RoHS
- Including Connecting Link

## X1 EcoProTeQ

- Top-Performance
- Triple-X Durability
- Developed for high end internal gear hub
- 110 or 130 Links
- EcoProTeQ Anti-Rust technology

110 Links Packing Unit: 1 / 5 / 30 box  
Product nr.: BXX1EP10

130 Links Packing Unit: 1 / 5 / 30 box  
Product nr.: BXZ1EP30

Packing Unit: 50m roll  
Product nr.: WRX01EEP

## Z1X Narrow EcoProTeQ

- Long Life
- No Drop inner plate
- 112 Links
- EcoProTeQ Anti-Rust technology

25 pc Box Packing Unit: 25 pcs CTN  
Product nr.: WSZ1EPN2

Packing Unit: 50m roll  
Product nr.: WRZ1EPNO

Packing Unit: 1 / 10 / 60 box  
Product nr.: BXZ1EPN1

Packing Unit: 25 pc Box  
Product nr.: WSZ1EPN1

Packing Unit: 50m roll  
Product nr.: WRZ1EPN1

- No Drop inner plate
- 128 or 136 Links/Box and 118 links Workshop packing
- Size 1/2"x 3/32" Narrow

**136 Links** Packing Unit: 1 / 10 / 60 box  
Product nr.: BXZ1HX36

**128 Links** Packing Unit: 1 / 10 / 60 box  
Product nr.: BXZ1HX28

**118 Links** Packing Unit: 25 pcs CTN  
Product nr.: WSZ1HXB8

Packing Unit: 50m roll  
Product nr.: WRZ1HX0

## Workshop solutions

- Chains on reels
- Reel Holders

### REEL HOLDERS

#### 50 meter reel for the efficient work shop

For professional dealers with a busy workshop, KMC now offers some chain models on workshop reels. The key models are available packed on 50 meter reels, ranging from single speed up to 11 speed chains. Because of the increasing difference in chain lengths, especially for e-Bikes, a dealer has to hold more stock or order more regularly. The 50 meter reels offer the advantage of flexibility, you can shorten to the desired length with less waste and lower cost. Obviously, KMC will include the right connecting links for proper and secure assembly.

Single reel holder  
Size: H: 200 - W: 150 - D: 320

Adapter

For easy dispensing of the reels KMC offers 2 solutions: a single reel holder for wall or work bench mounting (for work bench there is a special adapter) or a professional mobile reel center which can hold 3 reels. The reel center can be adjusted to proper working height making the busy workshop more efficient. The mechanic can quickly cut the chain to length, use the proper connector and finish his work faster.

As KMC derailleuer chains are compatible with all leading systems, a wide range of bikes can be covered.

Single reel holder  
Product nr.: DISREEL2

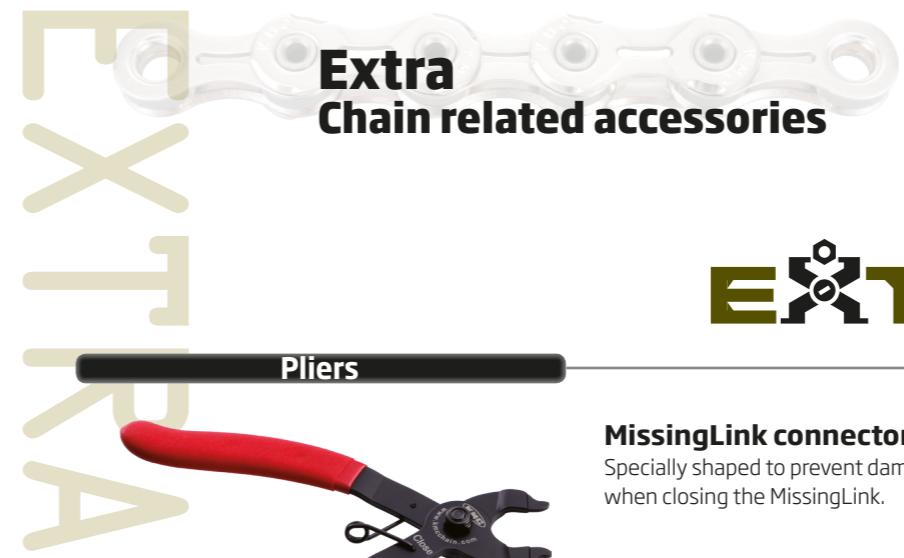

Adapter  
Product nr.: DISREEL3

Reel center Pro  
Product nr.: DISREEL1

# EXTRA

Pliers

## **MissingLink connector tool**

Specially shaped to prevent damaging the chain when closing the MissingLink.

Packing Unit: 1 card  
Product nr.: TOOL0004

A pair of KNIPEX 8" (200mm) wire cutters with black handles and a red handle cap. The pliers feature a black textured grip on the handles and a black coating on the jaws. The brand name 'KNIPEX' and model number '8' are printed on the upper handle. A red handle cap is shown separately at the top left.

## MissingLink removing tool

**MissingLink™ Tool**  
Specially shaped to prevent damaging the chain  
when opening the MissingLink.

Packing Unit: 1 card  
Product nr.: TOOL0003

A KMC Chain De-Rivetter tool, which is a specialized bicycle repair tool used for removing and installing chain links. It features a black and lime green ergonomic handle, a central threaded bar, and a long silver-colored pin or mandrel extending from one end.

**Chain Checker**

Digital Chain Checker

## Digital Chain Checker

KMC's Digital Chain Checker is the perfect tool to measure your chain exactly.

Packing Unit: 1 / 30 box  
Product nr.: TOOL0006

A black metal chain breaker tool with a central KMC logo. The left end is labeled 'STEP 1' with an arrow pointing left, and the right end is labeled 'STEP 2' with an arrow pointing right. Between the ends, there are two circular markings: one labeled 'OK' and another labeled 'NG'.
